

# Sid Ali HAMIDECHE

## CONTACT INFORMATION

---

BIRTH DATE: March 15<sup>th</sup>, 1994  
ADDRESS: 78180 Montigny-le-Bretonneux, France  
EMAIL: [sid-ali.hamideche@protonmail.com](mailto:sid-ali.hamideche@protonmail.com), [didousidali@gmail.com](mailto:didousidali@gmail.com)  
LINKEDIN: <https://www.linkedin.com/in/sid-ali-hamideche-350071151/>  
GITHUB: <https://github.com/didosidali>

## EXPERIENCE

---

- JUN 2020-DEC 2024 Research Engineer & PhD candidate at **Nokia Bell Labs/University of Rennes**, Massy/Nozay/Rennes, France
- Detecting the context of use of mobile networks users for beyond 5G/6G networks
  - User environment detection for mobile networks using Machine Learning techniques (LSTM, CNN..) on raw time series 3gpp radio signal measurements
  - Mobile networks user application/services detection using Machine learning
  - Representation Learning for feature extraction on huge amount of 3gpp radio signal measurement data
  - Federated learning for next generation mobile network (beyond 5G/6G) that are highly distributed
  - Developed android application for collection mobile network measurements (RSRP, RSRQ...)
- NOV 2019-JAN 2020 Software Engineer at **Altim France**, Boulogne-Billancourt, France
- MAR 2019-SEP 2019 Computer vision and machine learning internship at **VEDECOM**, Versailles, France  
Working on unsupervised and self-supervised classification methods for self-driving cars
- JUN-AUG 2018 R&D Engineer at **HB Technologies**, Algiers, Algeria  
Designed and developed applets for smart card
- FEB-JUN 2017 Image processing internship at **Laboratoire de Recherche en Intelligence Artificielle (LRIA)**, Algiers, Algeria  
Developed a new shape descriptor and realized a thesis entitled: "Multiple approximation of 2D shapes (Continuation of bachelor's project)"
- FEB-JUN 2015 Image processing internship at **Laboratoire de Recherche en Intelligence Artificielle (LRIA)**, Algiers, Algeria  
Studied and implemented different shape descriptors approaches and realized a thesis entitled: "Shape matching (Image processing)"

## EDUCATION

---

- DEC 2024 PhD in computer science: Machine learning, Context-aware networks, 5G networks and beyond at **Nokia Bell Labs Massy/Nozay, France**, and **University of Rennes, Rennes, France**
- SEP 2019 Master's (BAC+5) in MACHINE LEARNING, INFORMATION AND CONTENT (AIC) at **Paris-Sud University, Paris Saclay, Orsay, France**
- JUNE 2017 Master's (BAC+5) INTELLIGENT COMPUTER SYSTEMS (SYSTÈMES INFORMATIQUES INTELLIGENTS) at **University of Sciences and Technology Houari Boumediene, Algiers, Algeria**
- JUNE 2015 Bachelor's Degree in INFORMATION SYSTEMS AND SOFTWARE ENGINEERING (INGÉNIERIE DES SYSTÈMES D'INFORMATION ET DES LOGICIELS) at **University of Sciences and Technology Houari Boumediene, Algiers, Algeria**

## PUBLICATIONS

---

## SKILLS

---

- Python, PyTorch, Tensorflow, Hugging Face, NumPy, pandas, Matplotlib, Scikit-learn
- C/C++, OpenCV, Qt
- JavaScript, React, Node.js, HTML, CSS, Android Dev, REST API, JAVA, Git
- MySQL, MongoDB
- Linux, LaTeX, Inkscape, Blender, GIMP

## LANGUAGES

---
